So many worries,
 Each should be taken by itself.
 An individual solution
 Suited for each problem
 Will make worries less intense.

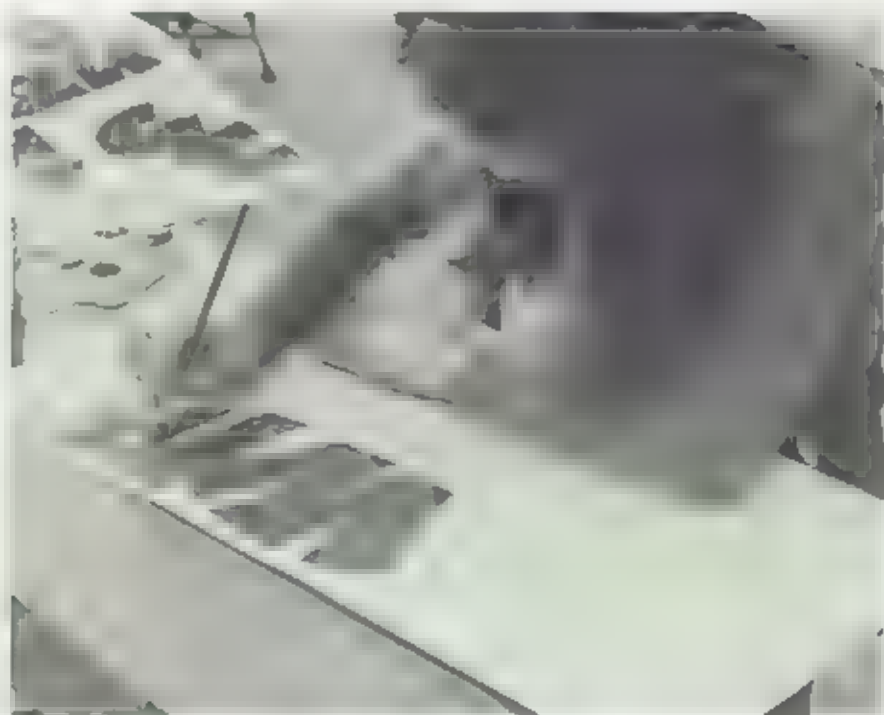

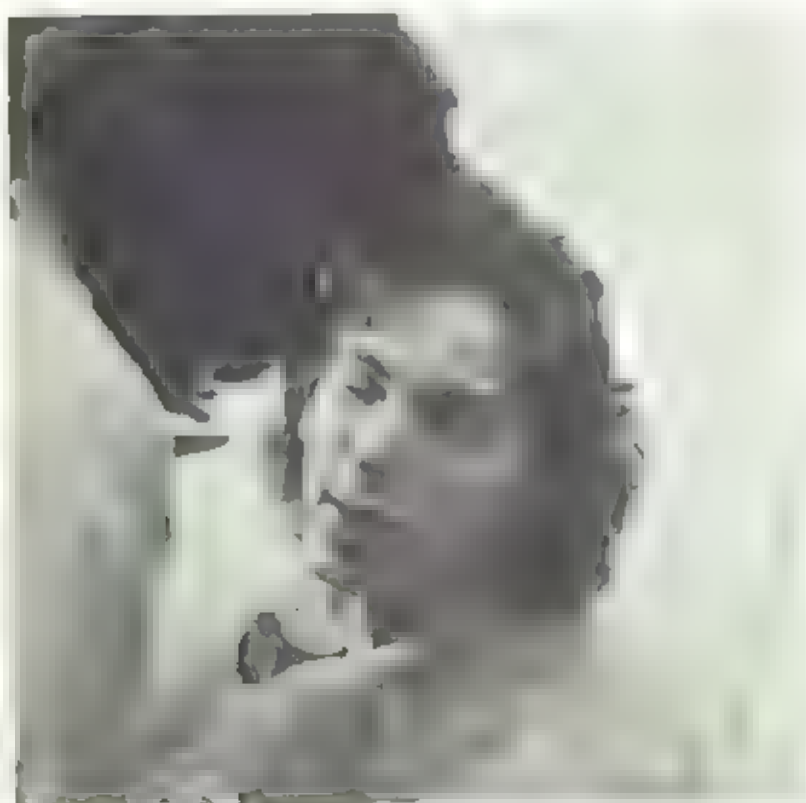

Why can't I be myself?
Is it because I'm overlooked?
Could it be I'm afraid of what others say?
I try to be an acceptable person,
Is that all wrong?

Musical

Cast, orchestra, chorus, promoters, backstage crews, each of these individual groups added their talents to the play as a whole. The end result was 'Kiss Me Kate', a production of tremendous appeal. Perhaps the most meaningful reward for those involved was the satisfaction the audience received from it

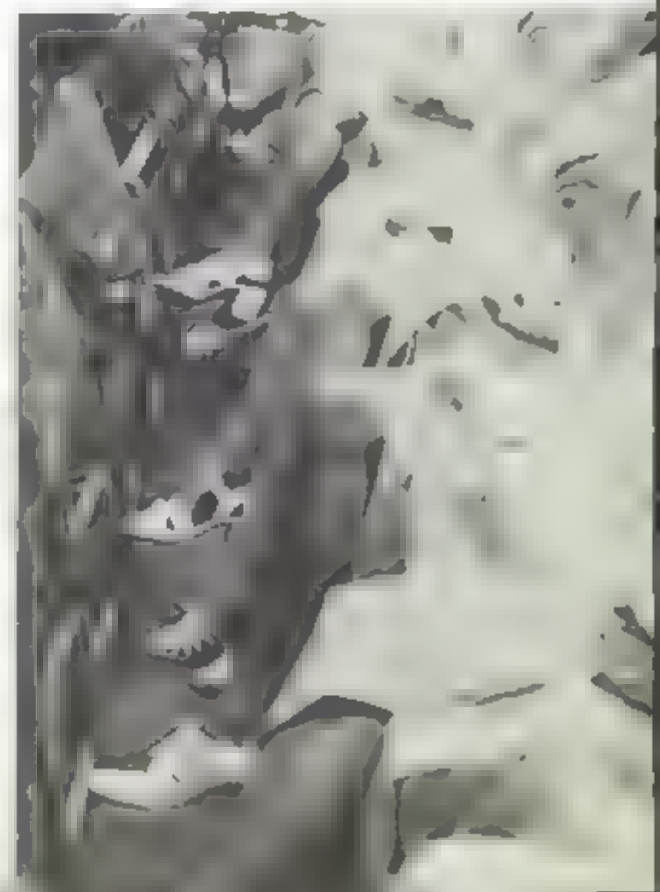

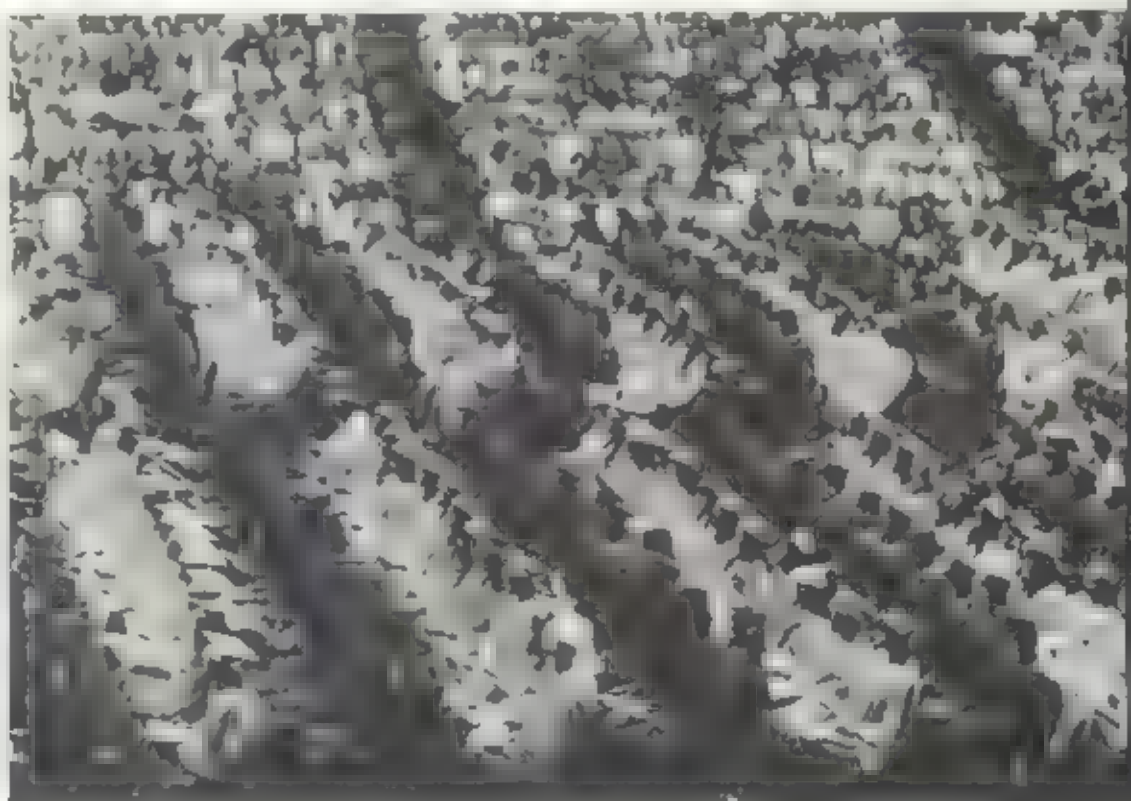

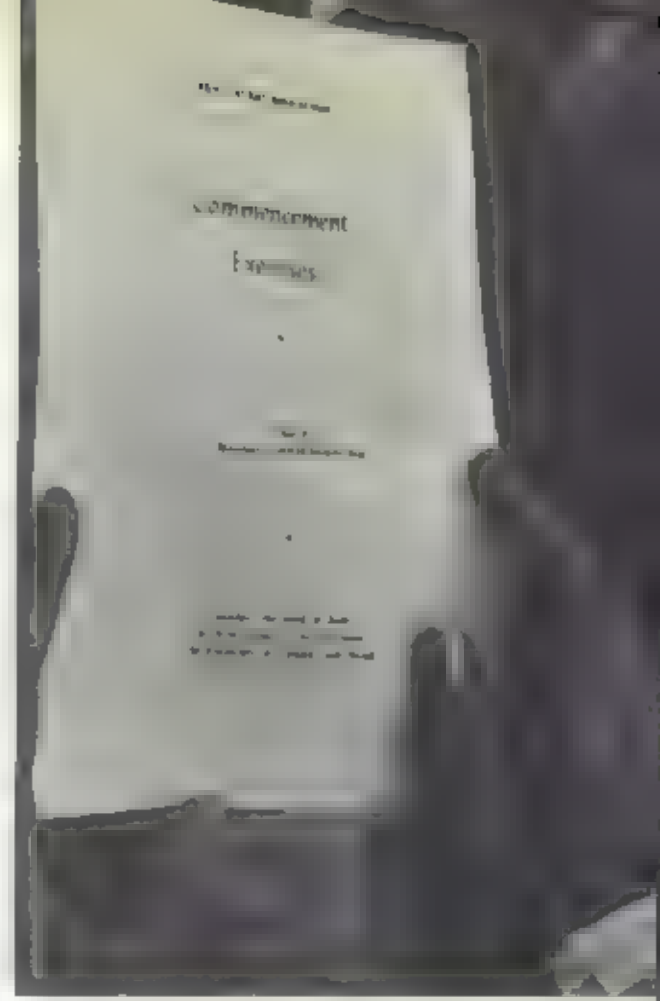

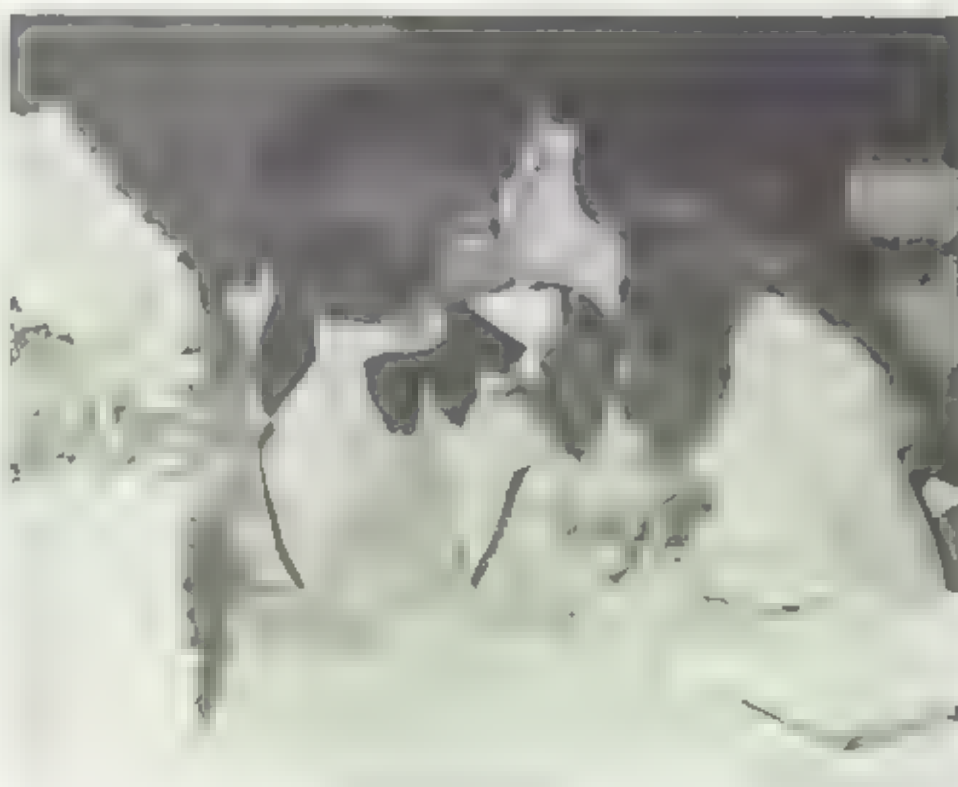

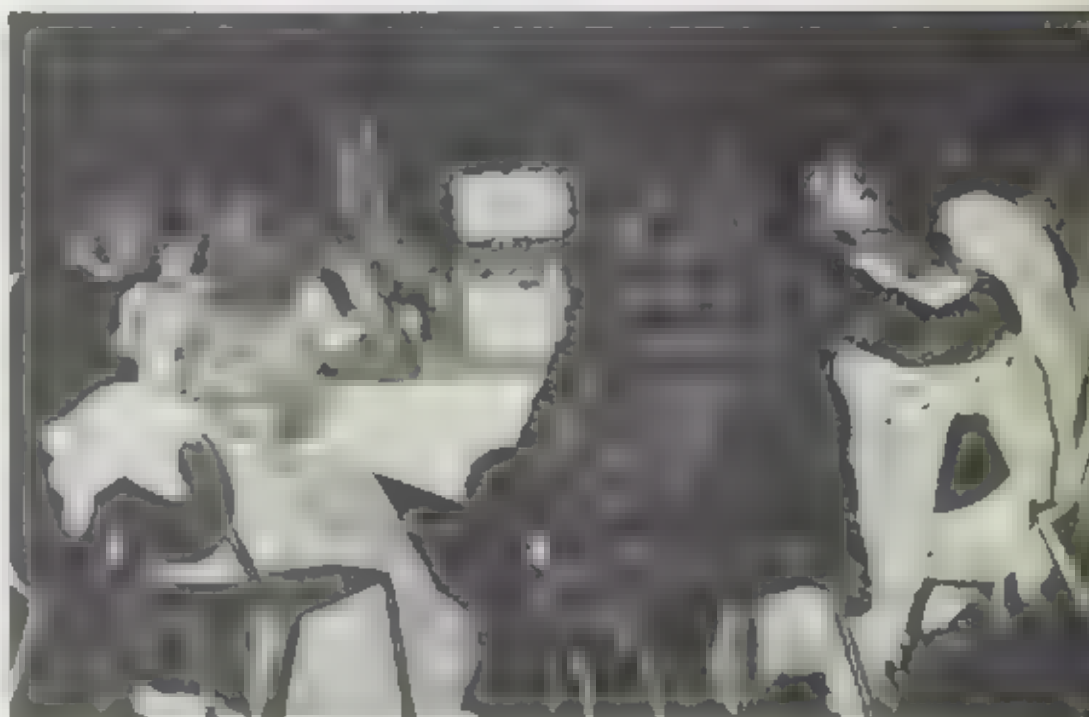

Commencement

How swiftly time flies by
It's here only to flash right by us
Grasp it!
Live now
Because it will soon be gone

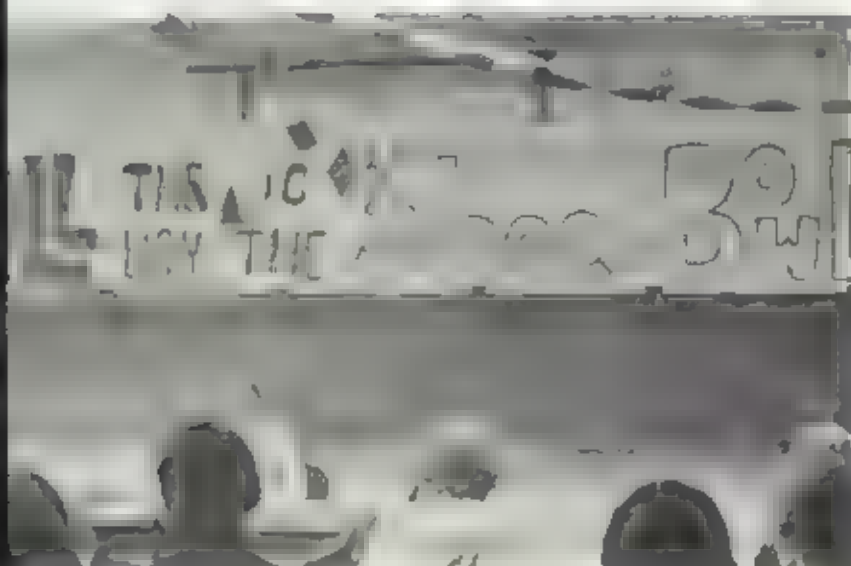

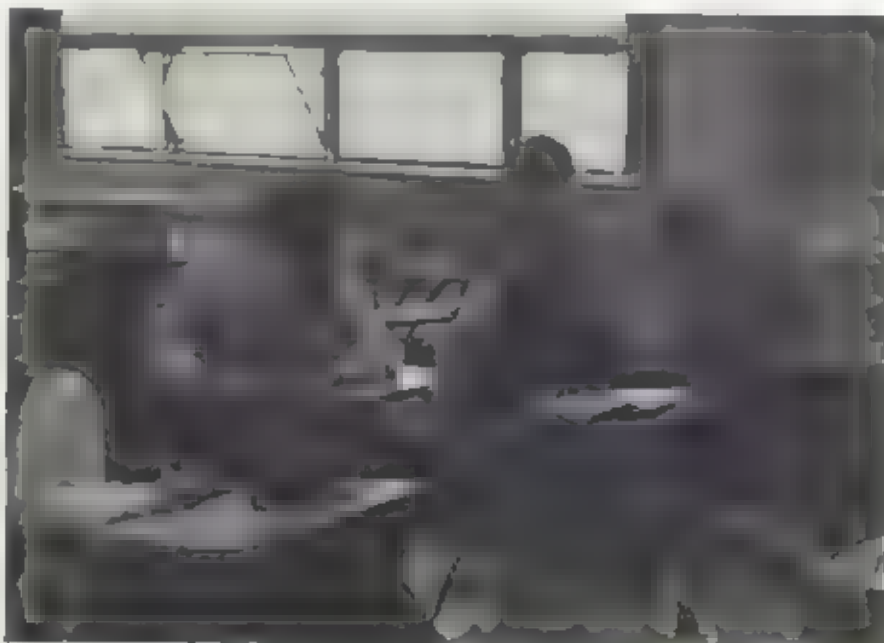

Senior Prom

Life is full of remembrances
Yet it is also full of new experiences.
One has to make a bridge
From past to future
And live towards the middle —
The here and now

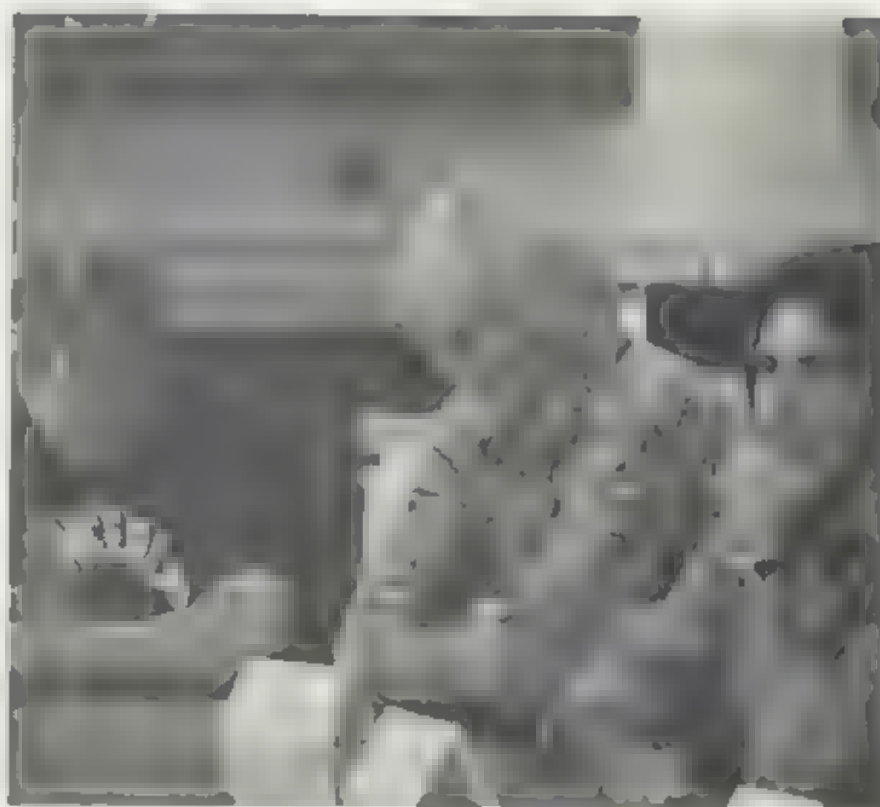

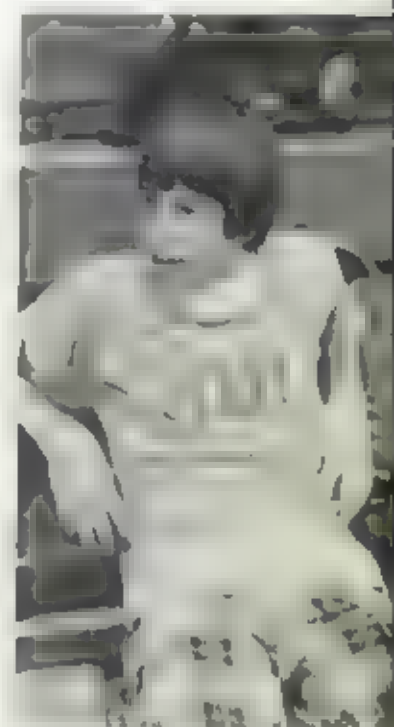

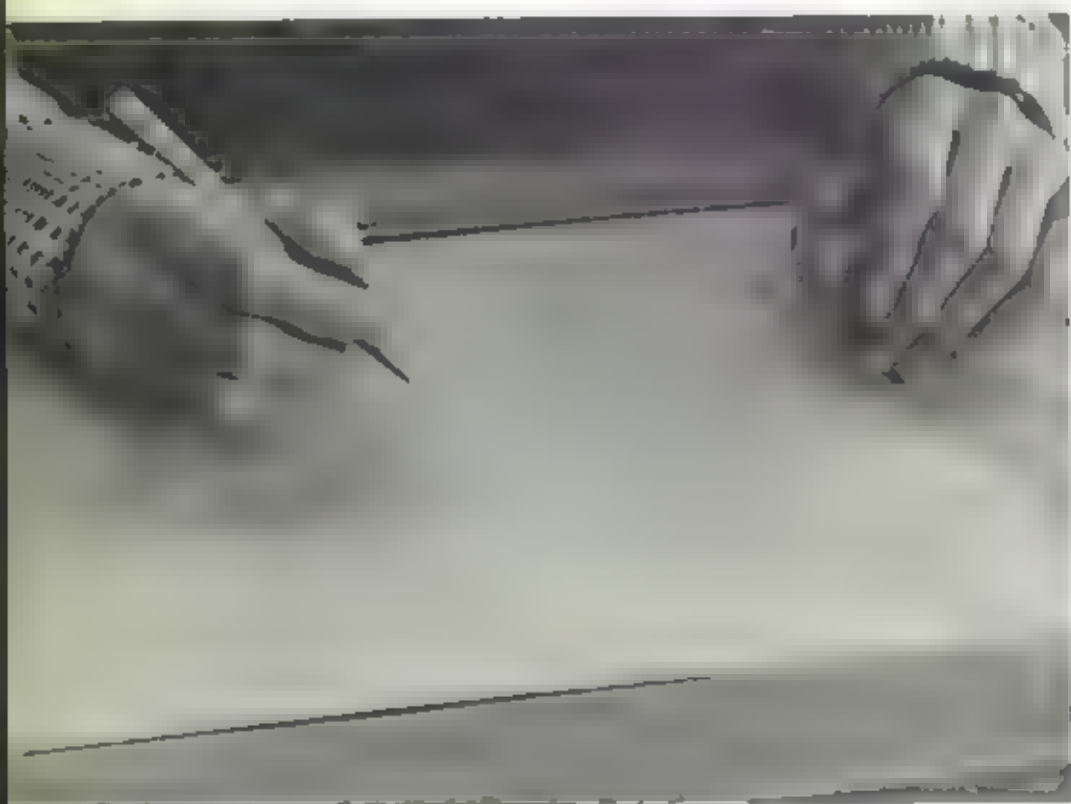

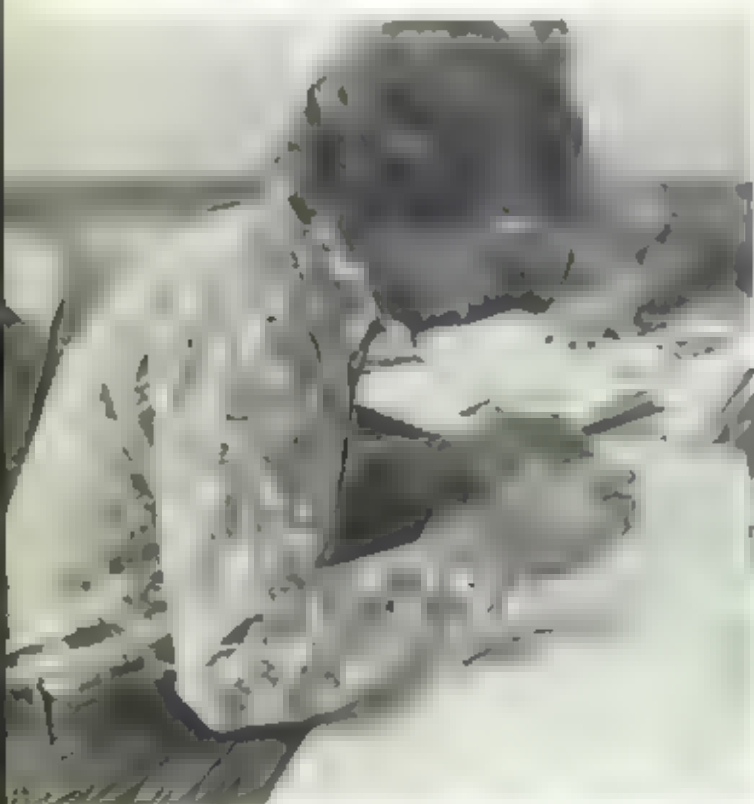

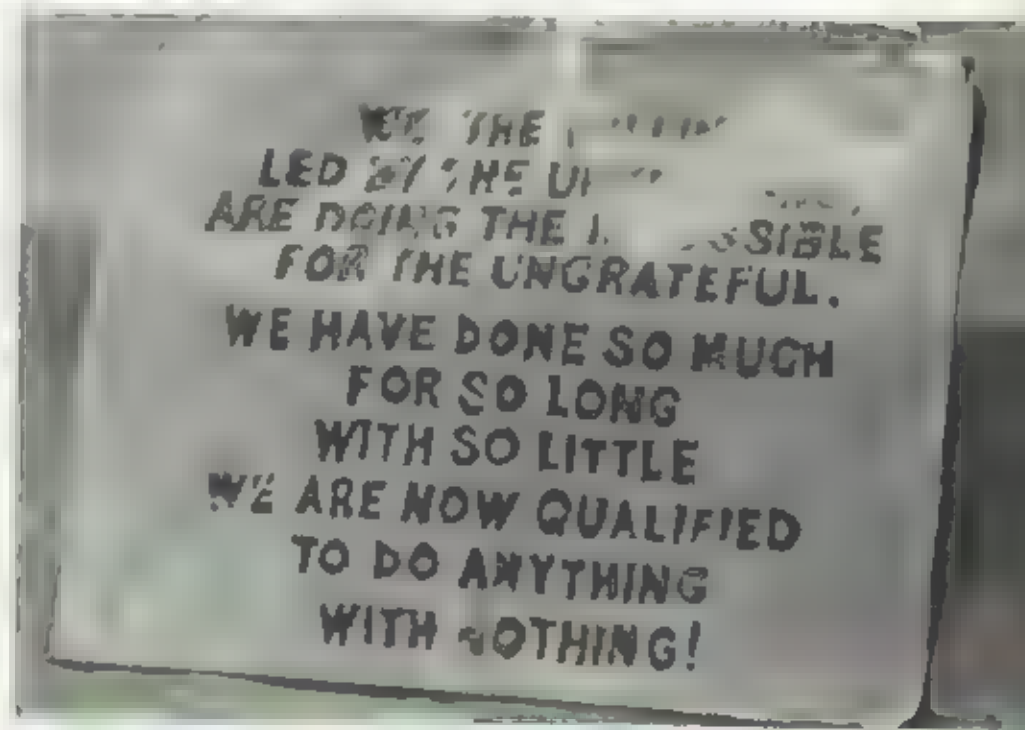

I know it's hard to try and still fail,
I know it's hard to correct mistakes,
I know it's hard when no one seems to understand,
I know it's hard to repair misunderstandings,
I know it's hard to get back up when we've been put down,
But it's not so hard to reach out to others
And accept what they have to offer

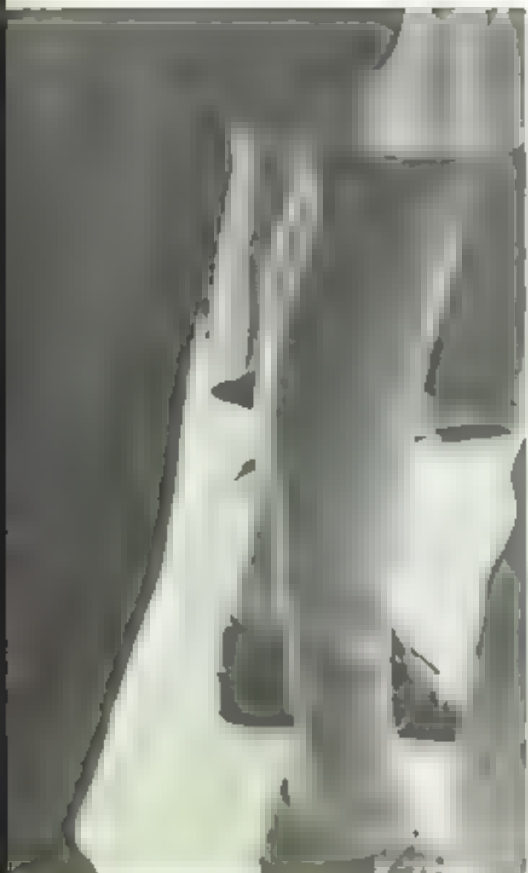

Even on the most frustrating day,
a glimmer of light can be seen
just ahead if you look for it.

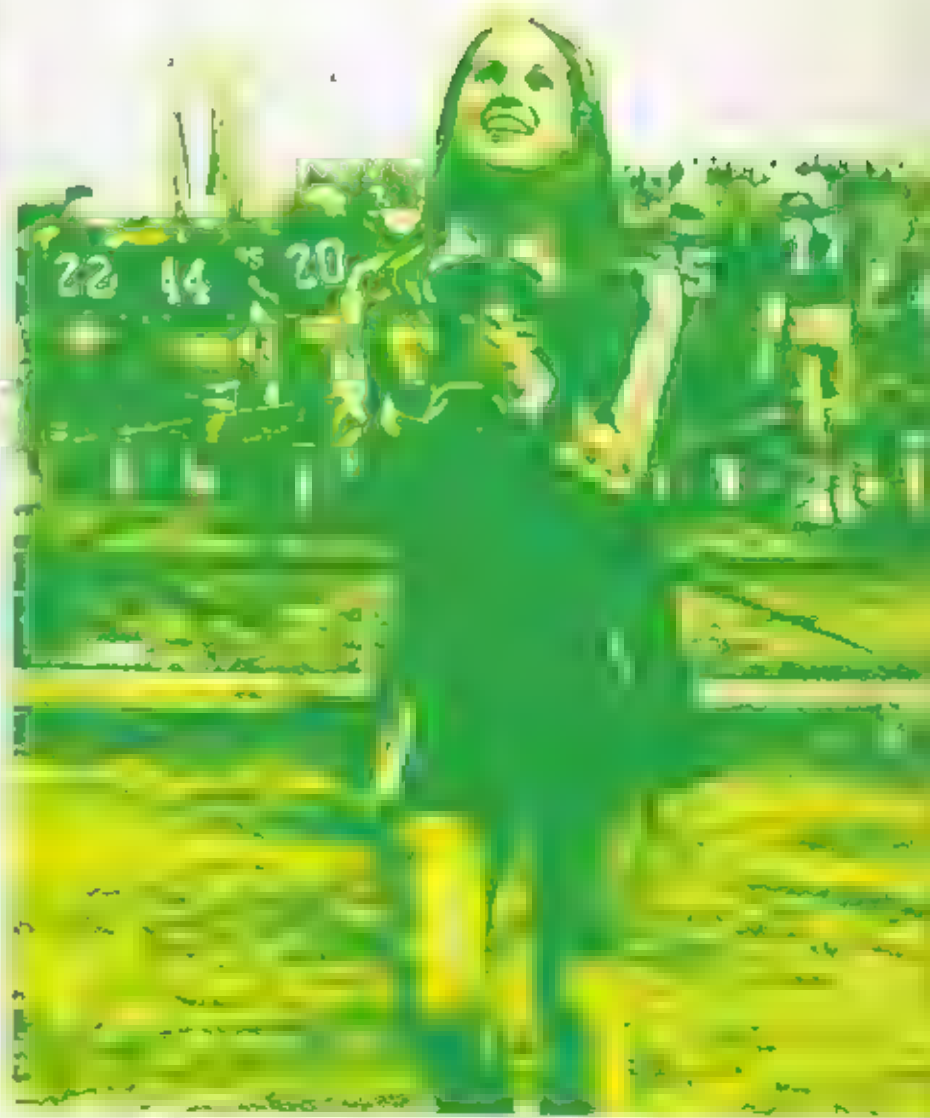

Hope starts in one person
Then spreads from one to another
Like flames.
It gives us the determination
And energy to continue onward,
To meet life's challenges.

This year Start is trying a new free flow lunch program. There are machines for milk, ice cream, sandwiches, chips, and pop. In addition, there is a small section in back where hearty appetites may select from milkshakes, fruit, salads, yogurt, and hot lunches. In general, most of the students like the new system

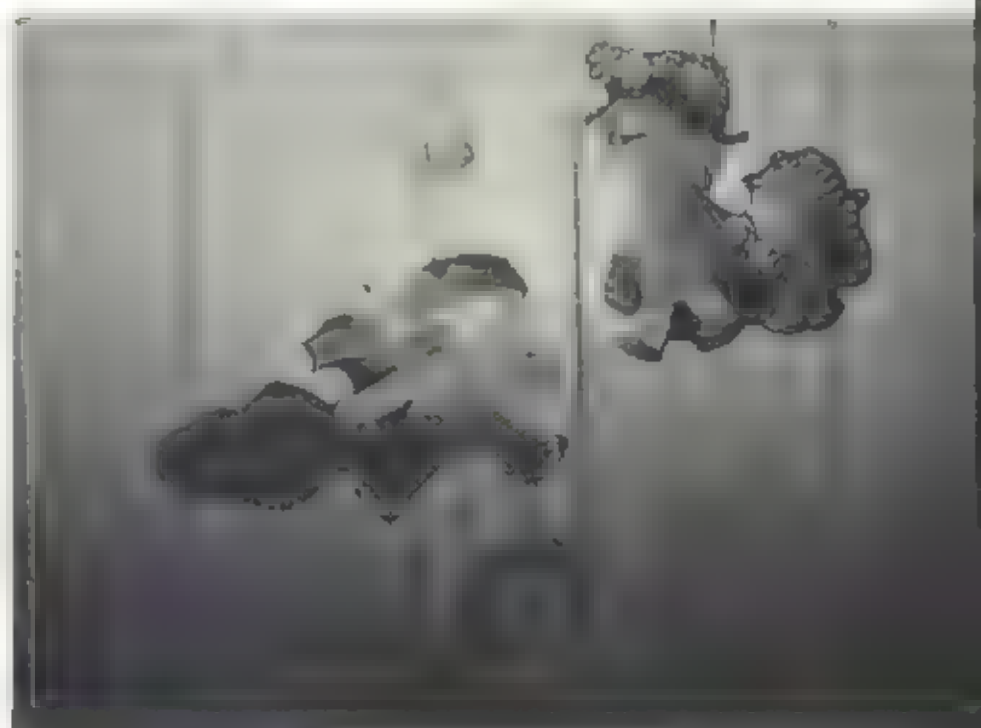

I have something
That's hard to come by
In the noisy rushing world.
It is peace of mind

Without true forgiveness,
Bonds of friendship
Can be severed
Forever

The trees were encircling this dramatic scene

The swans were swimming all around
And peace could be seen without a sound

Love is like a flower,
Blooming in the Spring,
Growing each and every day
With colors deepening.

But since love sometimes stops,
And people's hearts are torn,
That peace which builds in all of us
Is sometimes worn.

Rick Finn — 11

Peace is a bird
gliding on wing
Peace is a rosebud
blooming in spring
Peace is a catchy song
that is to sing
Peace is a tree —
high mountain king

Peace is a puppy,
lovable and warm
Peace is a corn cob
full of sweet corn
Peace is a feeling
that's not tattered or torn,
Peace is the way I feel
on a cold winter morn

Chris Harloff — 9

Real love can be nursed
in an environment
other than eternal matrimony
Love can thrive without
rings that bind and
without contracts
and legal documents
Friendship can be love
A love unrestricted
and refreshing, with
more than enough room for
both parties to grow
and perhaps change
And if the change is great enough
to change feelings
my love goes with you
till you may find
your heart's desire —
Beyond the next hill
Beyond the next town,
Beyond tomorrow.

Ice cream
is kids stuff —
icky, sticky, gooey,
messy, melting ice
cream. As your tongue
goes lap,
lap,
the ice cream goes drip,
drip;
and before you have the
chance to eat, the crisp,
crunchy cone; it's limp and
soggy. Whether it be rainbow
swirl or even vanilla, its
going to
drip
drip
drip
drip
down the side of
the cone
onto
your
hand.

Black man walking in the street,
White man clean and neat
Red man on the farm all day
White children hard at play,
Yellow faces sweating still
Earning pennies at the mill
White people turn and stare
At the color that you bare
If you can answer me please nod
My dear friends, what color is God?

In the door
Waxed floor.
Get your book
Take a look.
First bell rings
Many it brings.
Bell number two
In class — you're due.
Busily engaged .
Forget the page.
The same all day
Not much to say.
Now for lunch . . .
What's to munch?
Finally you're done
But homework's no fun.
Study all night
Sometimes write
Oh, what a chore
Out the door.
Relax awhile —
Now you can smile.

The atmosphere was still, yet restless. Like the air
before a great storm. Nothing stirred—not
a sound broke the trembling stillness
then at last with a

surging rush
of
speed
the rocks
broke
loose and
rumbled down
the
mountain
side at
last, and
down, and
upside
down, they
came to a
glattering halt
at the foot of the great mountain.

All of us need something to work for —
a goal
Once you have found your own goal,
work for it.
Don't set it aside for the time being
because it will be misplaced.

Be yourself —
 You're an individual.
 Don't conform to people's ideas
 Be what you want whenever you want,
 As long as it's the real you
 Don't worry what others think or say.

Reach out to life.
It is yours
To create
And mold.
Make your life
The way
You want it.

This is just one of many doors
that you will open in life
Try many doors
and then choose
the one for you

There is uncertainty before me.
 I know where I'm at,
 but my future seems to be a maze of puzzles.
 There are so many decisions to make.
 So many pressures,
 so many things I want
 to do now

Even though
I sometimes think I won't make it,
I know I can.
There are gloomy days,
When I can only fail,
but when the sun shines bright
on my shoulders, and my feet are
on soft green grass,
I move quickly towards my goal.

In Memory Of Mr. Jack Cholley

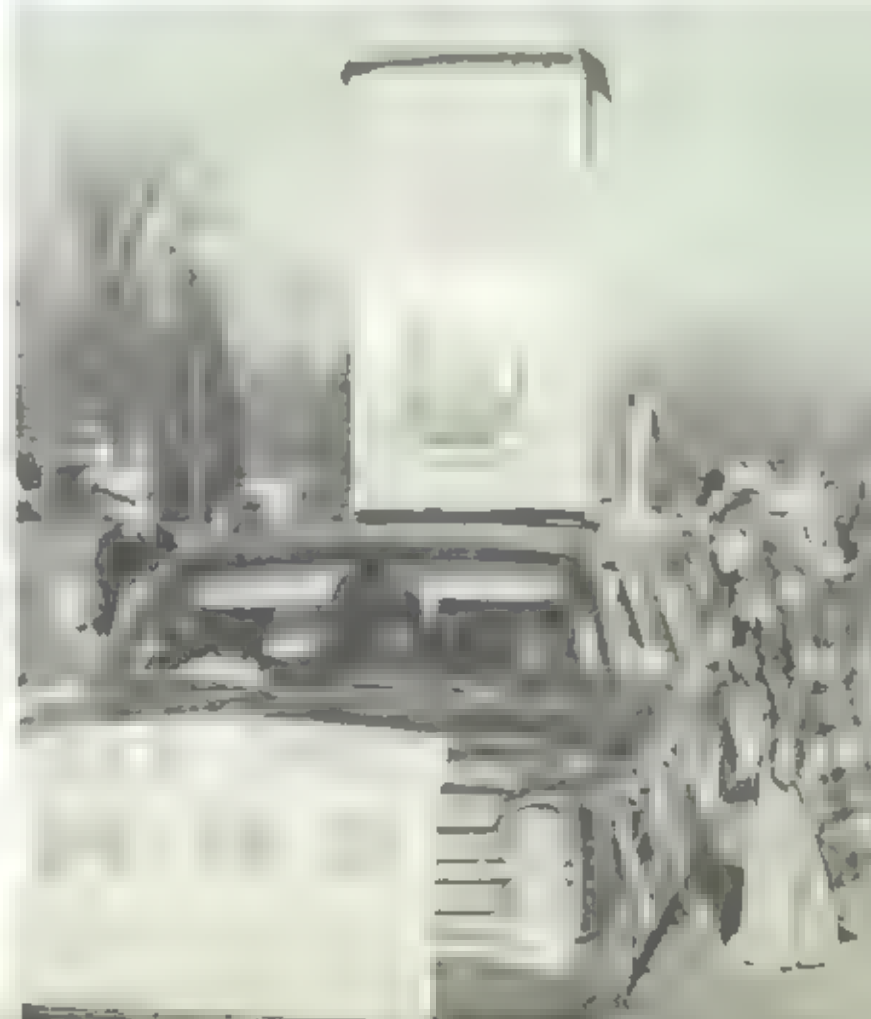

Friend, coach, class-advisor, Teacher
This was a man who dedicated his life to young people. His enthusiasm for living was infectious to all with whom he came in contact. He tried to live in such a way that he was a constant example to his students, colleagues, and friends

Although his teaching career was cut short, the kicking Homecoming float Santa Claus at Christmas, sense of humor, and the real involvement and concern with his students will never be forgotten. He touched many lives. The memories of him and his legacy of love for life coupled with a real concern for his fellow man will live on and on and on

who needs more power plants anyhow!

You do.

If you want to use the products you own
 today and will own tomorrow. Most are
 powered by electric energy.

If you want to work. Every job requires the
 use of electricity in some form.

If you want to live in a healthy environment.
 Most pollution control equipment runs on
 electric power.

You need power plants for all your wants.

We extend our appreciation to Western Yearbook, Mr. Krapp, Mr. Scheuerman, Mr. and Mrs. C. Paul Kenney, Enterprise School Photos, Mrs. Habib, Miss Marion, our advisor and friend, Morton P. Salt, our loyal companion, and above all — the seventeen 1975 SHIELD staff members.

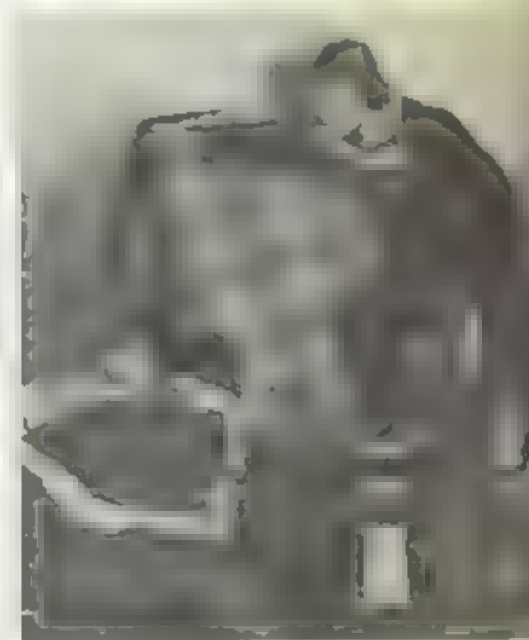

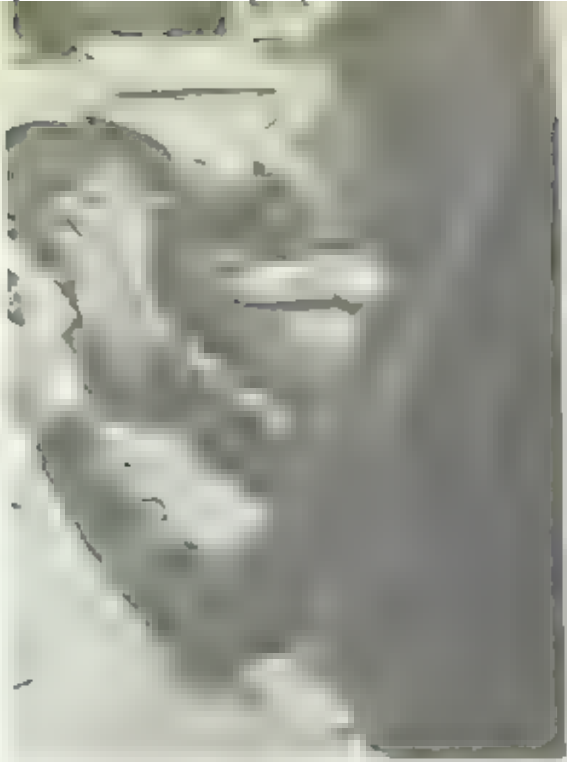

Last summer, the idea of a completed book seemed distant. Today, it is a reality. It has been a hectic yet short year. As each deadline drew near, our minds boggled. Would we make it? We did!

Today you are receiving a book full of hard work and weird memories. The staff and I have waited for this and pray that it means as much to you as it does to us
